

Alphabetic list of families of series A occurring in the Guianas

Defined as in Cronquist, 1981, and numbered in his sequence, with alternative names. Those published, with chronological fascicle number and year.

| | | | | | |
|---------------------------------------|--------------|----------|---------------------------------|------|----------|
| Abolbodaceae | | | Cannaceae | 195 | 1. 1985 |
| (see Xyridaceae 182) | | 15. 1994 | Canellaceae | 004 | |
| Acanthaceae 156 | | 23. 2006 | Capparaceae | 067 | |
| (incl. Thunbergiaceae) | | | Caprifoliaceae | 164 | |
| (excl. Mendonciaceae 159) | | | Caricaceae | 063 | |
| Achatocarpaceae 028 | | 22. 2003 | Caryocaraceae | 042 | |
| Agavaceae 202 | | | Caryophyllaceae | 037 | 22. 2003 |
| Aizoaceae 030 | | 22. 2003 | Casuarinaceae | 026 | 11. 1992 |
| (excl. Molluginaceae 036) | | 22. 2003 | Cecropiaceae | 022 | 11. 1992 |
| Alismataceae 168 | | 27. 2009 | Celastraceae | 109 | |
| Amaranthaceae 033 | | 22. 2003 | Ceratophyllaceae | 014 | |
| Amaryllidaceae (see Liliaceae 199) | | | Chenopodiaceae | 032 | 22. 2003 |
| Anacardiaceae 129 | | 19. 1997 | Chloranthaceae | 008 | 24. 2007 |
| Anisophylleaceae 082 | | | Chrysobalanaceae | 085 | 2. 1986 |
| Annonaceae 002 | | | Clethraceae | 072 | |
| Apiaceae 137 | | | Clusiaceae | 047 | |
| Apocynaceae 140 | | | (incl. Hypericaceae) | | |
| Aquifoliaceae 111 | | | Cochlospermaceae | | |
| Araceae 178 | | | (see Bixaceae 059) | | |
| Araliaceae 136 | | | Combretaceae | 100 | 27. 2009 |
| Arecaceae 175 | | | Commelinaceae | 180 | |
| Aristolochiaceae 010 | | 20. 1998 | Compositae (= Asteraceae 166) | | |
| Asclepiadaceae 141 | | | Connaraceae | 081 | |
| Asteraceae 166 | | | Convolvulaceae | 143 | |
| Avicenniaceae (see Verbenaceae 148) | | 4. 1988 | (excl. Cuscutaceae 144) | | |
| Balanophoraceae 107 | | 14. 1993 | Costaceae | 194 | 1. 1985 |
| Basellaceae 035 | | 22. 2003 | Crassulaceae | 083 | |
| Bataceae 070 | | | Cruciferae (= Brassicaceae 068) | | |
| Begoniaceae 065 | | | Cucurbitaceae | 064 | |
| Berberidaceae 016 | | | Cunoniaceae | 081a | |
| Bignoniaceae 158 | | | Cuscutaceae | 144 | |
| Bixaceae 059 (incl. Cochlospermaceae) | | | Cycadaceae | 208 | 9. 1991 |
| Bombacaceae 051 | | | Cyclanthaceae | 176 | |
| Bonnetiaceae (see Theaceae 043) | | | Cyperaceae | 186 | |
| Boraginaceae 147 | | | Cyrillaceae | 071 | 27. 2009 |
| Brassicaceae 068 | | | Dichapetalaceae | 113 | 27. 2009 |
| Bromeliaceae 189 | p.p. 3. 1987 | | Dilleniaceae | 040 | |
| Burmanniaceae 206 | 6. 1989 | | Dioscoreaceae | 205 | |
| Burseraceae 128 | | | Dipterocarpaceae | 041a | 17. 1995 |
| Butomaceae (see Limnocharitaceae 167) | | 27. 2009 | Droseraceae | 055 | 22. 2003 |
| Buxaceae 115a | | | Ebenaceae | 075 | |
| Byttneriaceae (see Sterculiaceae 050) | | | Elaeocarpaceae | 048 | |
| Cabombaceae 013 | | | Elatinaceae | 046 | |
| Cactaceae 031 | 18. 1997 | | Eremolepidaceae | 105a | 25. 2007 |
| Caesalpiniaceae 088 | p.p. 7. 1989 | | Ericaceae | 073 | |
| Callitrichaceae 150 | | | Eriocaulaceae | 184 | |
| Campanulaceae 162 (incl. Lobeliaceae) | | | Erythroxylaceae | 118 | |
| | | | Euphorbiaceae | 115 | |
| | | | Euphroniaceae | 123a | 21. 1998 |
| | | | Fabaceae | 089 | |
| | | | Flacourtiaceae | 056 | |
| | | | (excl. Lacistemaceae 057) | | |

| | | | | | |
|--|------|--------------|-----------------------------------|------|----------|
| (excl. Peridiscaceae | 058) | | Melastomataceae | 099 | 13. 1993 |
| Gentianaceae | 139 | | Meliaceae | 131 | |
| Gesneriaceae | 155 | 26. 2008 | Mendonciaceae | 159 | 23. 2006 |
| Gnetaceae | 209 | 9. 1991 | Menispermaceae | 017 | |
| Gramineae (= Poaceae | 187) | 8. 1990 | Menyanthaceae | 145 | |
| Gunneraceae | 093 | | Mimosaceae | 087 | 28. 2010 |
| Guttiferae (= Clusiaceae | 047) | | Molluginaceae | 036 | 22. 2003 |
| Haemodoraceae | 198 | 15. 1994 | Monimiaceae | 005 | |
| Haloragaceae | 092 | | Moraceae | 021 | 11. 1992 |
| Heliconiaceae | 191 | 1. 1985 | Moringaceae | 069 | |
| Henriquesiaceae (see Rubiaceae | 163) | | Musaceae (excl. Strelitziaceae | 192 | 1. 1985 |
| Hernandiaceae | 007 | 24. 2007 | (excl. Heliconiaceae | 190) | |
| Hippocrateaceae | 110 | 16. 1994 | Myoporaceae | 191) | |
| Humiriaceae | 119 | | Myricaceae | 154 | |
| Hydrocharitaceae | 169 | | Myristicaceae | 025 | |
| Hydrophyllaceae | 146 | | Myrsinaceae | 003 | |
| Icacinaceae | 112 | 16. 1994 | Myrtaceae | 080 | |
| Hypericaceae (see Clusiaceae | 047) | | Najadaceae | 096 | |
| Iridaceae | 200 | | Nelumbonaceae | 173 | |
| Ixonanthaceae | 120 | | Nyctaginaceae | 011 | |
| Juglandaceae | 024 | | Nymphaeaceae | 029 | 22. 2003 |
| Juncaginaceae | 170 | | (excl. Nelumbonaceae | 012 | |
| Krameriaceae | 126 | 21. 1998 | (excl. Cabombaceae | 010) | |
| Labiatae (= Lamiaceae | 149) | | Ochnaceae | 013) | |
| Lacistemaceae | 057 | | Olacaceae | 041 | |
| Lamiaceae | 149 | | Oleaceae | 102 | 14. 1993 |
| Lauraceae | 006 | | Onagraceae | 152 | |
| Lecythidaceae | 053 | 12. 1993 | Opiliaceae | 098 | 10. 1991 |
| Leguminosae (= Mimosaceae | 087) | 28. 2010 | Orchidaceae | 103 | 14. 1993 |
| + Caesalpiniaceae | 088) | p.p. 7. 1989 | Oxalidaceae | 207 | |
| + Fabaceae | 089) | | Palmae (= Arecaceae | 134 | |
| Lemnaceae | 179 | | Pandanaceae | 175) | |
| Lentibulariaceae | 160 | | Papaveraceae | 177 | |
| Lepidobotryaceae | 134a | | Papilionaceae | 019 | |
| Liliaceae (incl. Amaryllidaceae) | 199 | | (= Fabaceae | 089) | |
| (excl. Agavaceae | 202) | | Passifloraceae | 062 | |
| (excl. Smilacaceae | 204) | | Pedaliaceae | 157 | |
| Limnocharitaceae (incl. Butomaceae) | 167 | 27. 2009 | (incl. Martyniaceae) | | |
| Linaceae | 121 | | Peridiscaceae | 058 | |
| Lissocarpaceae | 077 | | Phytolaccaceae | 027 | 22. 2003 |
| Loasaceae | 066 | | Pinaceae | 210 | 9. 1991 |
| Lobeliaceae (see Campanulaceae | 162) | | Piperaceae | 009 | 24. 2007 |
| Loganiaceae | 138 | | Plantaginaceae | 090 | |
| Loranthaceae | 105b | 25. 2007 | Plumbaginaceae | 151 | |
| Lythraceae | 094 | | Poaceae | 039 | |
| Malpighiaceae | 122 | | Podocarpaceae | 187 | 8. 1990 |
| Malvaceae | 052 | | Podostemaceae | 211 | 9. 1991 |
| Marantaceae | 196 | | Polygonaceae | 091 | |
| Marcgraviaceae | 044 | | Pontederiaceae | 125 | |
| Martyniaceae | | | Portulacaceae | 038 | |
| Mayacaceae | 183 | | Potamogetonaceae | 197 | 15. 1994 |
| | | | Proteaceae | 034 | 22. 2003 |
| | | | Rafflesiaceae | 171 | |
| | | | Punicaceae | 090 | 27. 2009 |
| | | | Quiinaceae | 097 | |
| | | | Ranunculaceae | 045 | |
| | | | Rapateaceae | 108 | |
| | | | Ranunculaceae | 015 | |
| | | | Rapateaceae | 181 | |

| | | |
|-------------------------|------|----------|
| Rhabdodendraceae | 086 | 27. 2009 |
| Rhamnaceae | 116 | |
| Rhizophoraceae | 101 | |
| Rosaceae | 084 | |
| Rubiaceae | 163 | |
| (incl. Henriquesiaceae) | | |
| Ruppiaceae | 172 | |
| Rutaceae | 132 | |
| Sabiaceae | 018 | |
| Santalaceae | 104 | |
| Sapindaceae | 127 | 29. 2012 |
| Sapotaceae | 074 | |
| Sarraceniaceae | 054 | 22. 2003 |
| Scrophulariaceae | 153 | |
| Simaroubaceae | 130 | |
| Smilacaceae | 204 | |
| Solanaceae | 142 | |
| Sphenocleaceae | 161 | |
| Sterculiaceae | 050 | |
| (incl. Bytneriaceae) | | |
| Strelitziaceae | 190 | 1. 1985 |
| Styracaceae | 076 | |
| Suraniaceae | 086a | |
| Symplocaceae | 078 | |
| Taccaceae | 203 | |
| Tepuianthaceae | 114 | |
| Theaceae | 043 | |
| (incl. Bonnetiaceae) | | |
| Theophrastaceae | 079 | 27. 2009 |
| Thunbergiaceae | | |
| (see Acanthaceae) | 156) | |
| Thurniaceae | 185 | |
| Thymeleaceae | 095 | |
| Tiliaceae | 049 | 17. 1995 |
| Trigoniaceae | 124 | 21. 1998 |
| Triuridaceae | 174 | 5. 1989 |
| Tropaeolaceae | 135 | |
| Turneraceae | 061 | |
| Typhaceae | 188 | |
| Ulmaceae | 020 | 11. 1992 |
| Umbelliferae | | |
| Urticaceae | 023 | 11. 1992 |
| Valerianaceae | 165 | |
| Velloziaceae | 201 | |
| Verbenaceae | 148 | 4. 1988 |
| (incl. Avicenniaceae) | | |
| Violaceae | 060 | |
| Viscaceae | 106 | 25. 2007 |
| Vitaceae | 117 | |
| Vochysiaceae | 123 | 21. 1998 |
| Winteraceae | 001 | |
| Xyridaceae | 182 | 15. 1994 |
| (incl. Albolobdaceae) | | |
| Zamiaceae | 208a | 9. 1991 |
| Zingiberaceae | 193 | 1. 1985 |
| (excl. Costaceae | 194) | |
| Zygophyllaceae | 133 | |
